

Give your child a world class education in Denmark

Most parents strive to give their children the best possible foundation for a good education. However, choosing a boarding school is also trusting someone else to not only educate but also to inspire, form, and raise your child personally as well as academically. At Herlufsholm Skole we have more than 450 years' experience in doing exactly that.

My name is Ann Hansen, and I am the Director of International Affairs at Herlufsholm Skole in Denmark. As luck would have it, I will be attending a Global Education Conference in Los Angeles in April. During this visit, **I would love to invite you and your family to a reception/ drinks and snacks and tell you more about our middle school, our IB Diploma Program, our Danish STX (high school) and also our summer school.**

I have much more to tell you about, i.e. our international opportunities, our safe and caring boarding facilities, our extra-curricular program, and how we can make a positive and long-lasting impact in your child's life. I myself, made my way from an ex-patriate Dane living in Washington DC, to Herlufsholm, 26 years ago.

Please meet me at the **Crowne Plaza Redondo Beach and Marina Hotel on Wednesday, April 5th at 7 pm.** RSVP to Janni Zacho at jaz@herlufsholm.dk

Best wishes
Ann Hansen
